Celtic Life & Heritage Foundation

Legends: An Introduction Education Module Teacher Instructions

Components:

Two Slide Presentation Versions
Video of Presentation
Teacher Guide
Student Handouts
Teacher Supplemental Material

Presentation

There are three forms of the presentation

- Visual Projection
    - One slide per page
    - Rich color backgrounds

- Print Handouts
    - Light background
    - 2 slides per page

- Video Presentation
    - Play entire presentation via video from our website or YouTube channel.
    - Narration is by a native Irish speaker and is the same as the slide show

Teacher Guide / Presenting Information

- The Teacher Guide is formatted with the slide (sans background) on the top and notes for the teacher on the bottom.
- Slide text is written so students can take turns reading the text aloud or the teacher can read it for the class.
- Some slides have additional information in the notes section for the teacher to either answer questions from the class or give additional anecdotal information, if desired.

Timing

If the presentation is given with no additional participation, it takes approximately twenty (20) minutes. We recommend setting aside at least 30 – 40 minutes for the initial presentation to include participation. Allow 60 minutes if including activity directions and time to start working on projects.

Activities, Icons, & Supplemental Material

There are two icons on the Activity sheet showing supplemental material:

= There is a corresponding hand out to give the students as a part of the activity.

= There is supplemental information for the teacher to use / reference for the activity.

Activities are categorized into three sections:
- Individual
- Small Group
- Entire Class

Activities have been created in such a way to touch on all different learning aspects and have corresponding icons to show what areas are covered by each activity:

Math	Science	Geography	Writing	History	Research	Art	Music	Presenting	Vocabulary	Active	Analysis

Time to complete activities ranges from a few additional minutes (such as the Follow Along – done in conjunction with the presentation), thirty minutes of homework, or up to a month or more. The teacher decides which activities to assign the class, if any.

Supplemental Material

Some activities need additional information in order to complete. The supplemental material offers information not included in the basic presentation in order to enhance the educational experience.

Technology Needs

For best effect, the slide presentations need to be displayed in large form at the front of the room, using a computer attached to a projector or monitor. To see the pdf in full version, select the expand button in Adobe Acrobat.   Alternatively, use a monitor or projector to play the video provided.
